ACCESSORIES

APAC
2021

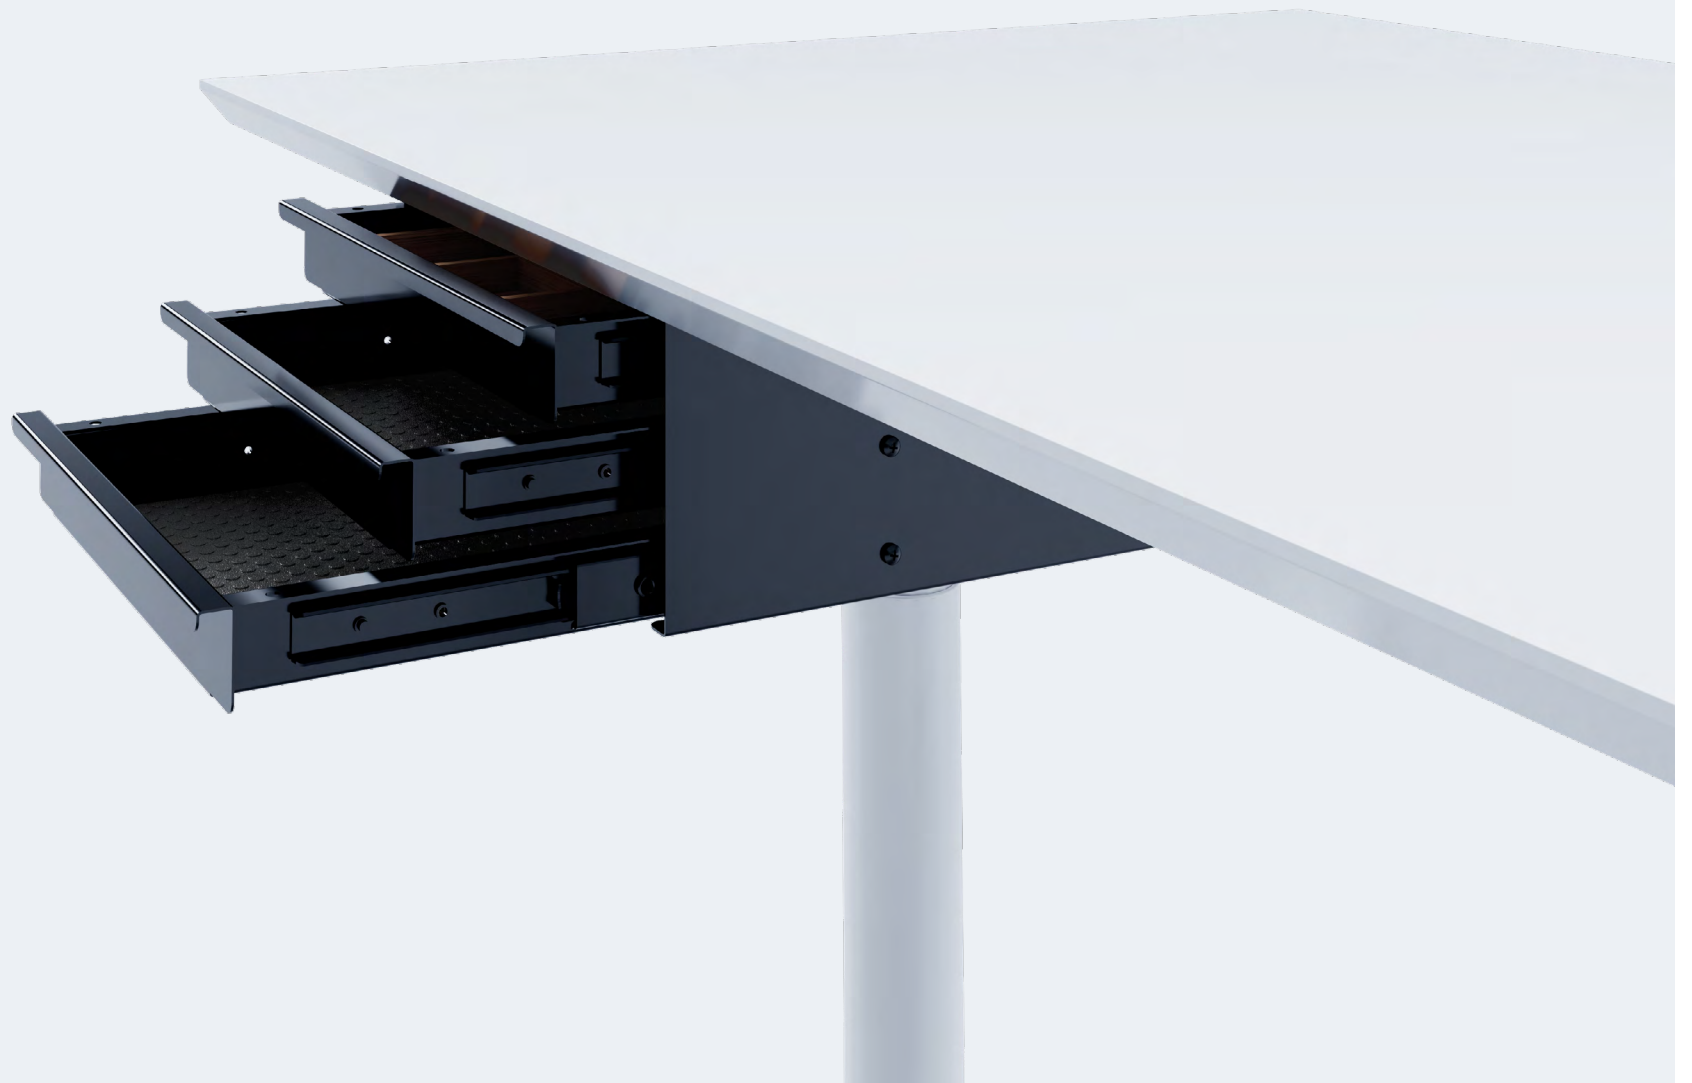

A 3D cutaway rendering of a desk drawer. The drawer is pulled out, revealing a laptop on the left, a smartphone on the right, a pen, and a notebook. The interior of the drawer has a dark, textured surface. The desk is white, and the background is a solid light brown color.

**LET'S GET
ORGANISED**

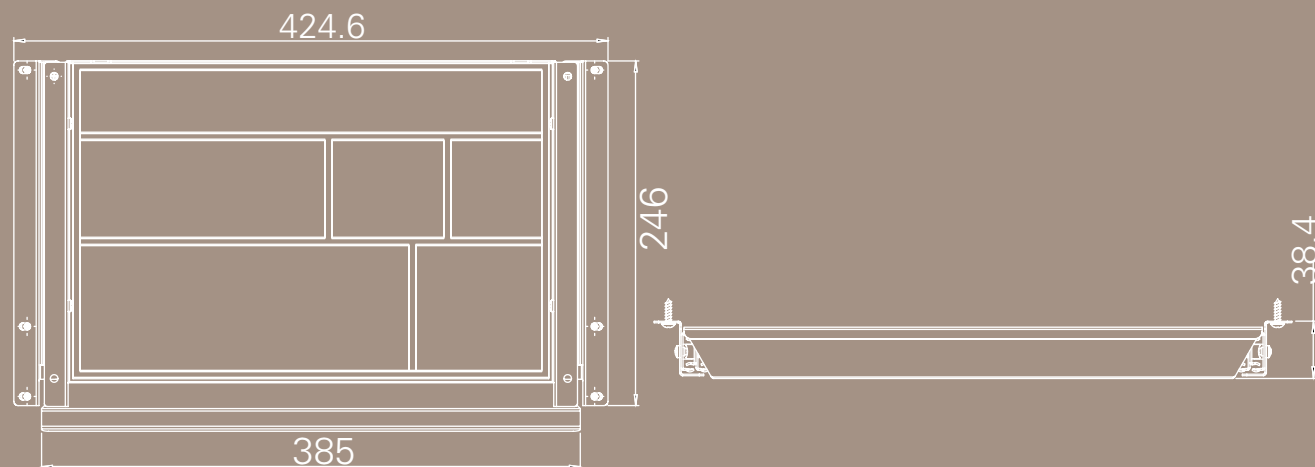

GET YOUR **DESK ORGANISED**

Whether working from home or at the office, it is useful to keep your desk organised during- and after your workday. No one likes their (home) office to be a big mess. By using a stationary drawer, you can easily organise and gain more free space at your desk during the workday and store all your writing equipment once the workday is over. All our drawers open easily and extract fully, so you quickly have an overview of the content. The simple and nice design ensures that the drawer blend in easily with your desk and interior. Our lockable drawers help protect against unauthorized access. We have changed all inlays from plastic to an eco-friendly alternative made of bamboo, without compromising on the quality and performance.

MAKE YOUR
CABLE CLUTTER
DISAPPEAR

Our cable trays are the perfect solution to hide away cables and keep your workspace neat and tidy. Our trays are designed that you can get your cables out of sight and stored in seconds, but at the same time, you still can access them when needed. The functionality and stylish design make them fit any workspace. We have also created an eco-friendly version made out of bamboo and perfect match to our bamboo stationary drawer.

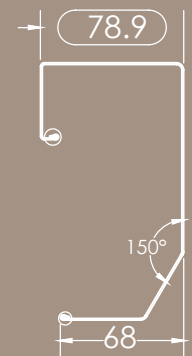

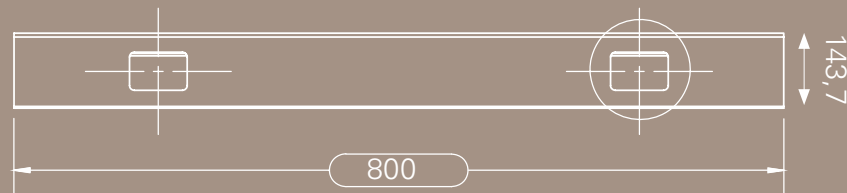

A white cable management tray is shown installed under a desk. The tray is long and narrow, with several rectangular cutouts along its length. It is mounted to the underside of the desk with small brackets. The text "NO MORE CABLE CLUTTER" is overlaid in a bold, black, sans-serif font on the right side of the tray. The background is a plain, light-colored surface.

THE NEW
ALLROUNDER

With the multifunctional box you have numerous options for storage and filling. The Multibox can be used for existing or new workstations. Your cables can be stowed away quickly in the Multibox, or you can easily add some green by adding the Planter to your Multibox.
